US Listed Options

Options Disclosure Documents

Options trading entails significant risk and is not appropriate for all investors. Before trading options, please read the Options Clearing Corporation's Options Disclosure Document ("ODD"), titled Characteristics and Risks of Standardized Options and published supplements to the ODD (all available at https://www.theocc.com/about/publications/character-risks.jsp). Additionally, there are special risks associated with uncovered option writing. Before engaging in this activity, please review the document titled Special Statement for Uncovered Options Writers, provided to you by Citadel Securities LLC or Citadel Securities Institutional LLC, as applicable, during the counterparty or client onboarding process.
