

Citadel Securities (Europe) Limited

Section 172(1) Statement for the year ended 31 December 2024

Section 172(1) Statement

SECTION 172(1) STATEMENT

As set out in section 172 of the UK Companies Act 2006 (the "Act"), the Directors are required to act in a way that they consider, in good faith, to be most likely to promote the success of Citadel Securities (Europe) Limited ("CSEL" or the "Company") for the benefit of its members as a whole. In performing their duty under the Act, the Board of Directors is required to have regard to, amongst other matters: the likely consequences of any decision in the long term; the interests of the Company's employees; the need to foster the Company's business relationships with suppliers, customers and others; the impact of the Company's operations on the community and environment; and the need to engage with key stakeholders in order to maintain a reputation for high standards of business conduct. The Directors give careful consideration to the factors set out above in discharging their duties.

BOARD ROLES AND RESPONSIBILITIES

The Company is a wholly owned subsidiary of the CS Group which is privately owned and ultimately controlled by Kenneth Griffin, its founder. Given its ownership structure and its role within the CS Group, the Board of Directors look to implement the CS Group strategy through the Company whilst ensuring adherence with local requirements and considering the impact on key stakeholders. The Board of Directors has responsibility for decision-making with respect to matters deemed to be of significance or strategic importance for CSEL.

As at 31 December 2024, the Board of Directors comprised two independent non-executive Directors who provide oversight and constructive challenge to Management and two executive Directors. The Board, in discharging its duties, delegates authority to Management. The remit and responsibility of each committee is clearly defined and updated periodically as required. The principal management committee is the Executive and Operating Committee (the "EOC"), which consists of senior management of the Company and other group employees. The Board receives regular updates from Management on the Company's financial performance, risk limits, and compliance with laws, rules and regulation, which all are considered as part of the Board of Directors' ongoing oversight to ensure the Company is managed in a manner that promotes its long term success. Management also presents proposals on significant matters to the Board of Directors for review, challenge and approval, including but not limited to changes to the Company's risk appetite and tolerances. In considering these and other matters, the Board of Directors consistently considers whether the proposal would promote the long-term success of the Company.

STAKEHOLDER ENGAGEMENT

The Directors recognise the value of building strong and transparent relationships with stakeholders in promoting and achieving the long-term success of the Company. In making decisions and performing its oversight role, the Board of Directors takes into account the views and interests of key stakeholders, including its shareholder, employees, regulators, trading counterparties, trading venues and suppliers. Considering the impact on a broad range of stakeholders is an important part of the decision-making process and the Board of Directors seeks to consider the interests and priorities of each stakeholder group. However, the Board of Directors acknowledges that in balancing different perspectives it is not always possible to deliver the desired outcome for all stakeholders.

Shareholder

The Company is a wholly owned subsidiary of a privately owned group. As a matter of course, a global business and strategy update is provided to the Board, and the Directors take due account of the interests of the ultimate owner and the strategy of the wider group in their decision making to ensure alignment. The executive Directors are in frequent dialogue with the CS Group senior management to ensure their feedback is sought with respect to significant decisions taken by the Board of Directors.

Employees

The Company does not have any direct employees but a number of staff employed by an affiliate are under the Company's direction and control.

All significant departments and functions are represented on the EOC or other management level committees attended by the executive directors. This helps to ensure active feedback and engagement between employees and the Board. In addition, the CS Group has regular town hall meetings to which all employees are invited to help ensure the Citadel Securities strategy and plans are understood by the Company's employees.

Section 172(1) Statement

The Board of Directors has established a remuneration committee to oversee the approval and implementation of the Company's remuneration policy. The policy is designed to foster sound risk management and alignment with the strategy, objectives, values and long-term interests of the CS Group while also attracting and retaining top performing and high potential talent necessary to deliver results to all stakeholders. The Citadel Group believes in hiring people and having employees who do things the right way, who act with integrity and who practice sound judgement and common sense in all their actions and who conform to the letter and spirit of the law at all times.

The Board of Directors also receives regular updates on conduct risk metrics, which provides it with relevant data and information on employee conduct, culture, and emerging issues.

Regulators and Trading Venues

The Board of Directors recognises the importance of an ongoing constructive dialogue with regulators and policymakers to share the Company's experience as a market stakeholder and recommendations on best practices across financial market legislative and regulatory developments. The CS Group is committed to the integrity, transparency, efficiency, competitiveness, and stability of financial markets. CSEL has consistently engaged with policymakers and regulators to ensure the successful implementation of key financial services regulations including the Markets in Financial Instruments Regulation and Directive ("MiFIR" and "MiFID II"), European Market Infrastructure Regulation ("EMIR"), Short Selling Regulation ("SSR"), and the Prudential Framework for Investment Firms ("IFPR"). The Board of Directors has requested and received regular updates on regulatory matters of relevance for the Company and on the status of the CS Group's regulatory engagement and dialogue.

The CS Group remains an advocate for pragmatic solutions to financial services issues as they relate to the future UK regulatory framework, the EU-UK relationship, as well as in relation to all markets in which CSEL is active. The Company shared this approach in the remit of the HM Treasury's Wholesale Financial Markets Review and continues to do so by supporting the UK Government's comprehensive review of the country's financial services regulatory framework following the adoption of the Financial Services and Markets Act 2023. To this end, in 2024, the CS Group has responded to several public consultations initiated by the FCA, and HM Treasury, either independently and/or through various trade association partners. At a global level, the CS Group also remains a firm proponent of the G-20 reforms to the over-the-counter derivatives markets – including promoting central clearing, enhancing transparency, transitioning to more competitive trading, and instilling more disciplined margin requirements – that have already begun to, and once fully adopted will further, reduce systemic risk, enhance investor protection, and make these markets more efficient and accessible for all market participants. The Company remains in close contact with exchanges and regulators during periods of elevated market volatility. The Board of Directors was kept apprised of these matters as part of its oversight role.

Trading Counterparties and Suppliers

The CS Group strives to provide the most efficient execution and the highest calibre of services to clients and in so doing making markets more fair, transparent and accessible for all participants.

The Company is committed to supporting and developing strong relationships with suppliers and understands the importance of meeting payment terms, particularly for smaller businesses. The Directors noted that the Company had met its key performance indicators in relation to payment periods.

On behalf of the Board

Steven Atkinson, Director
